

NOSHE 2026

NTPC Conference on **Occupational Safety, Health and Environment**

Theme

Stronger SHE for Building a Brighter Tomorrow

 **3rd - 4th July 2026**

 **Venue: NTPC Power Management Institute (PMI),
5-14, Film City, Sector 16A, Noida, Uttar Pradesh 201301**

KEY OBJECTIVES

Drive a Culture of Prevention: Champion a proactive "Zero Harm" culture across organizations, establishing total safety, health and employee well-being as fundamental, deep-rooted values.

Drive Environmental Stewardship: Map out actionable climate response pathways, evaluating green innovations, circular economy mechanics, and "Source-to-Sink" protection models.

Advance ESG Integration: Highlight strategic frameworks that seamlessly merge Environmental, Social, and Governance compliance platforms with workplace health systems.

Harness Digital Innovation: Explore the transformative power of Artificial Intelligence and digitalization to elevate occupational health monitoring and predictive safety frameworks.

Fostering Knowledge Sharing: Provide a forum for industry leaders, policymakers, researchers, and practitioners to exchange insights, innovations, and success stories in Occupational, Safety, Health and Environment.

ABOUT THE ORGANISER

NTPC Limited is India's largest integrated power utility, driving the nation's growth with clean, reliable, and affordable energy for over five decades. Established in 1975, NTPC has evolved from a thermal power generator into a diversified energy major with a presence across the entire value chain from conventional and renewable generation to coal mining, power trading, e-mobility, and green hydrogen.

With an installed capacity ~90 GW, NTPC powers every fourth light in India while advancing the country's clean energy ambitions. The company is leading the charge toward a sustainable future, targeting 60 GW of renewable energy capacity by 2032 and investing in emerging technologies such as nuclear power, battery energy storage, carbon capture, and green chemicals.

As a Maharatna company under the Ministry of Power, Government of India, NTPC stands for excellence in engineering, safety, and sustainability. Our operations consistently deliver higher reliability and plant loading than national averages, reflecting our unwavering focus on performance and environmental stewardship.

Beyond power generation, NTPC is committed to empowering communities, nurturing innovation, and building a resilient energy ecosystem that supports India's rapid economic growth. With people at its core and sustainability at its heart, NTPC continues to energize India's progress responsibly and relentlessly.

CHIEF PATRON

Shri Gurdeep Singh
Chairman & Managing Director
NTPC Ltd.

PATRONS

Shri Ravindra Kumar
Director (Operations)
NTPC Ltd.

Shri Anil Kumar Jadli

CONSULTANT

ACADEMY

ABOUT THE VENUE

POWER MANAGEMENT INSTITUTE (PMI)

PMI is the apex training institute of one of the largest and best power companies in the world, which powers the growth of the fastest-growing major economy in the world—the Indian economy.

Located in the National Capital Region, well connected to Delhi by a state-of-the-art expressway, the Institute has a sprawling 10-acre campus in Sector-16A, Noida, in the center of fast-growing IT parks and knowledge hubs which are home to MNCs from across the globe. It faces the green belt along the banks of the Yamuna, and the famous Okhla Bird Sanctuary is only 5 km away. PMI is well connected to all major markets and commercial centers of the National Capital Region.

The Institute is capable of conducting up to 13 programs simultaneously on any particular day. The lecture rooms, conference and seminar rooms are equipped with the very latest in teaching aids and audio-visual facilities. Syndicate rooms for small group activities are also available. For large gatherings and conferences, the Institute has a plush 500-seater auditorium.

PMI draws on diverse sources to bring together thought leaders in its calm and serene environs, from practicing professionals in the large in-house talent pool of NTPC, to industry experts, consultants, and academics from leading business schools. This creates a learning environment that simultaneously educates and enriches.
